## Jacking and Skidding

Jacking systems can be an alternative for lifting where the space is a constraint. Integrated fleet consists of several types of jacking systems in its fleet.

A skidding system is comprised of a series of skid beams moved by hydraulic push-pull cylinders, traveling over a pre-constructed track, custom made for the project requirements.

# Heavy Transport (Haulage)

Integrated scope of services in transportation includes all types of trucking, trailers and equipment to handle a wide variety of requirements. No matter what the industry or region, Integrated caters to individual requirements.

## Transportation Fleet

### Trucks & Dump Trucks

- 4X2
- 6X4
- 8X4

### Trailers – Conventional

- Flatbed Trailers 25 to 40 T , Low Bed Trailers 40 to 100 T , Gooseneck Trailer 55T
- Hydraulic Modular Trailers Capacity 100 AXLE LINE (34T/Axle)

# SPMT

Self-Propelled Modular Trailer (Remote Controlled) – Goldhofer (PST / SL-E & PST / SL)

# Hazardous Material Transportation

## Tankers

Integrated Logistics is an approved and preferred transport contractor in the Oil and Gas Sector. Where we transport fuel Diesel, Petroleum Products, Chemicals and Molten Sulphur etc  
And many more different type of tankers like Vacuum Tankers, Water Tankers with different capacities.

# Earth Moving

Any construction or Infrastructure Projects start with earthworks, where Integrated logistics have ranged fleet with different sizes and capacities, our specialized team exhibits vast experience in earth moving works. We have the latest equipment, Excavators, Backhoe, Wheel Loaders and many more.

Demolition and Construction activities engaged by our team and machineries.

# Industrial Equipment Services

Includes Various type of Air Compressors, Welding machines, Tower Lights

# Rig Move Services

The Integrated Rig Move Service is specialized and is far excellent in oil and gas logistics, begins with Safety, Planning and Performance around the key equipment for customized logistics solutions. Our 24/7 personal commitment to Oil and Gas logistics service needs to include not only transport services, but include Drilling Rig Move, Super Rig Move, Work Over, Casing, Heavy Haulage. Our team's knowledge and expertise of Oil & Gas domain equipment and supplies, rigs, bulk or packaged goods, and heavy lift transports are delivered where and when you need them. And supplies, rigs, bulk or packaged goods, and heavy lift transports are delivered where and when you need them.

Our team is constantly committed to adhering the industry's highest safety standards, as well as our own high standard of delivering quality, timely results. We are an OSHA certified company.

Our experts have experience in moving rigs from any origin to final destinations which include:

- Safety
- Inspection / Survey
- Packing / Securing
- Shipping Plan
- Loading
- Documentation

# Energy Services – Power Rentals

Integrated Logistics offers Power Rentals for Temporary Project Locations or permanent power rental to the telecom towers or where there no electrical network available. Our offering of power not just supplying the Generators, a team of expert engineers and electrical technician understand the needs of the customer, proving adequate sizing of the generators, transformers with all the associated requirement such as Fuel tanks, Load banks, Synchronizers, totalizers panels as per the client and project requirement. The power Rental division has its own trained and qualified maintenance team available for 24 X 7 Generator Capacity varies from 50 KVA to 2200KVA, Diesel Tank capacity ranges from 500L to 30,000 liters as per the specs approved by local authorities, MEW, Equate, KOC and KNPC.

Alternate power solutions provided by Integrated Projects, Wind and Solar power systems.

The background image shows two industrial workers in the foreground, seen from behind. They are wearing yellow hard hats and high-visibility safety vests (one orange and one green). They are holding and looking at a large set of blueprints. The background is an industrial facility with tall distillation columns and various structures, illuminated by warm lights against a twilight sky.

## Shutdown Management Services

Integrated is a leading logistics provider to the major Oil and Gas, Petro chemical companies, Power Sectors in Kuwait and Qatar. Several Shutdown and maintenance projects executed with a critical time line with greater efficiency.

# Port Operations

Integrated Logistics is a leading Harbor Operator in Kuwait. Integrated management has many years of experience in the management viz a viz port Stevedoring/ Bulk material handling, storage management, transportation to end users.

Port Operations involve loading and unloading a non-Containerized cargo transported in over dimensional / Overweight (e.g. Steel, Oil and gas equipment, construction equipment, wind towers and bulk material etc.) Over dimensional and heavy cargo efficiently handled with the highest safety standards.

Integrated has many years of experience in handling hazardous materials. Industry standard code practiced to manage our day to day operations.

Integrated is operating Ports in Kuwait. Every year 250 ships handled by integrated in the ports of Kuwait and an average of 15 million tons of aggregates a year handled by our professional team.

## Stevedoring /Bulk Material Handling by Integrated

Integrated's capability to handle aggregates, Pet coke, Clinker, Gypsum Rocks, Coal, Steel Scrap, DRI (Direct Reduced iron), HBI (Hot Briquetted Iron), General Cargo, Jumbo Bags.
